

CARRANZA DAY FIGHTING FOR TROOPS

Socialists Name Eugene Debs for President

RADICAL LEADER NOW IN PRISON CHOICE OF PARTY

HE HAS HAD NOMINATION OF
HIS PARTY FIVE TIMES
NOW.

DELEGATES CHEER

Candidacy Was A Foregone
Conclusion But Received
With Wild Enthusia-
siasm.

(By Associated Press.)
New York, May 13.—Eugene
V. Debs, federal convict num-
ber 2,253, was nominated by
acclamation for the presidency
of the United States at the
socialist party's national con-
vention here today.

Cheer upon cheer greeted
the naming of the socialist
leader, now serving a 10 years
sentence in the federal peni-
tentiary at Atlanta, Ga., for
violation of the espionage act.

The din was continuous as all
those who had been able to crowd
their way into the convention hall
strained forward, eyes bent on the
platform, where was set a life sized
portrait of Debs, framed in black.

After 12 minutes, the de-
monstration was still at its height.
The applause, after being continued
for five minutes, was broken by the sing-
ing of the "Internationale." The
cheering then was resumed, mingled
with strains of the "Marseillaise" and
"Hymn of Free Russia."

Morris Hillquit, one time candidate
for the New York mayoralty and
chairman of the convention, de-
clared that the party in 1920 will poll from 2-
3,000,000 to 3,000,000 votes.

In 1904, when Debs ran for the
presidency, he received 420,978 votes.
In 1912 he received 897,031, the
greatest number ever received by a
candidate in the United States.
In 1916 when Allan L. Benson was
the socialist candidate for president
the vote was 635,113.

Debs was nominated as "the Lin-
coln of the Wabash" by Edward
Henry, a delegate from Indiana.
Debs' home state speech Henry
described with such effect a visit
which he had paid Debs shortly after
the socialist leader's release from
prison that some of the dele-
gates broke down and wept.

In Federal Pen-
itentiary at Atlanta, Ga. he
began serving a 10 year sentence for
violation of the wartime espionage
act April 1918.

Nominated 5 Times
Debs is 65 years old. His presi-
dential nomination today is the fifth
time he has been elected socialist
candidate before he became a social-
ist. In the late seventies he served
two terms in the Indiana state peni-
tentiary for a school brought by
fire. He once was a candidate for congress
from the Fifth Indiana district.

ARMED BANDS ARE IRISH SHOOTINGS ACTIVE IN IRELAND GROW IN NUMBER

(By Associated Press.)
London, May 13.—Reports of an
unusual number of activities by sur-
ged and masked men in various sec-
tions of Ireland were received in
London today. The reports began
trickling in early in the morning
and by noon had reached the propor-
tions of an avalanche. As at Easter

were destroyed. Most of the barracks
attacked were not occupied by the
regular police force, which had been
sent to the Irish centers.

Tax Offices Raided.
Income tax offices also were again
attacked and many documents de-
stroyed. A notable instance of this
was at a Dublin office where the
documents were destroyed and the
office was laid upon an income
tax office in Belfast.

At the Irish office it was said at
midnight that the office was
without advice concerning the
events mentioned in the reports.

FORGED MESSAGE OFFERED BY SIMS, DANIELS DECLARES

SECRETARY OF NAVY DE-
NIES SIGNING CABLE-
GRAM—PRODUCED
IN INQUIRY.

CONVOY DISPUTE Bares Controversies With Ad- miral in London Over Troop Protection.

(By Associated Press.)
Washington, May 13.—Charges
that the secretary of the navy
during the testimony of Rear
Admiral Sims bore a forged signa-
ture were made today by Secretary
Daniels.

The concluding paragraph of the
cable read:
"In regard to convoys I consider
that American vessels having armed
guards are safer when sailing indepen-
dently."

Mr. Daniels testified that immedi-
ately upon reading the admiral's
testimony he knew he never sent
such a cablegram and he started on
investigation.

The secretary said he finally found
the original dispatch in the British
embassy, through which it had been
sent and that the name signed was
"A. F. Carter, by direction of the
chief of naval operations."

Cells of Convoy Controversy
Much of the secretary's testimony
today was devoted to the controversy
over conveying troops. He in-
sisted that Admiral Sims had not
sent the cablegram, but that he was
as to the necessity for protecting
transports and told the committee
he had found it necessary to remind
Admiral Sims that the first duty of
American destroyers abroad was to
protect the vessels.

Mr. Daniels charged that Admiral
Sims had been misled by a report
from the first convoy as soon as it
arrived abroad, leaving the trans-
ports without protection for the re-
turn voyage. Admiral Sims, he said,
finally was instructed to protect the
ships when they left France.

Objection to Levathan.
Mr. Daniels testified that Admiral
Sims had objected to the use of the
German liner Levathan as a
troop ship on the ground that her
great length made her a better tar-
get for submarines than the smaller
ships. He also said the admiral had
contended that the ship should be
operated to Liverpool rather than to
Brest, because of her facilities for
handling her cargo.

The navy department, the secre-
tary said, followed the admiral's ad-
vice and the ship was sunk. Some of
the documents in support of the
theory that the ship was sunk be-
cause of her length were then dis-
carded, the witness said, and the
Levathan operated out of Brest.
The secretary said he was not sure
of the number of troops transported.

Navy Sponsored Convoys
Mr. Daniels presented various offi-
cial documents in support of the con-
tention that the convoy system was
originally sponsored by the American
navy and that it was not adopted
because of the German submarines.
The reports of the raiders' activi-
ties have been pouring in all day from
numerous sections.

TENDERLOIN CHIEF'S INDICTMENT HOLDS

(By Associated Press.)
New York, May 13.—Judge Ma-
lone in general sessions court today
denied a motion to dismiss the in-
dictment against Edward Joseph
Dominick Henry, former commander
of the tenderloin, charged with ne-
glect of duty by failing to suppress
unsubscribing resorts.

Counsel for the defense declared
that the far-fung tenderloin with a
floating population of 500,000, of
which the police had no control, was
immoral in the world.

He declared there were no regular
immoral establishments in the dis-
trict, but that the police had failed
to prevent the immoral purposes
could not be legally raised by the
police.

"Why there are ten thousand of
fences being committed at this very
hour," he said.

Five Wolves Are Killed Near City

Five puppy timber wolves, each
about two months old, were killed
yesterday by James and Ralph Max-
field, young sons of Alvo Maxfield,
barber of the town of Janesville.
The animals were traced to their
hole in the woods off the Evansville
road.

The mother, which had been bother-
ing sheep, chickens and ducks, was
seen by the boys yesterday after-
noon. When they shot at her, she
turned a somersault, but got away,
apparently unhurt. The trail was
sufficiently distinguishable to permit
following it. The boys tried to
catch the young ones alive failed.
They were killed with rifles. The
mother escaped.

Explanation offered by farmers of
the presence of timber wolves so far
south is that the big forest fires of
two years ago drove the animals this
way and that they never returned.
The boys will receive \$50 bounty—
\$5 from the county and \$5 from the
state on each.

the treaty fight, declared today in
the senate, supporting the republic-

that we have powers of the president
should cease."

"When resolutions of this character
were originally introduced in the
senate, I voted for them. I have
wished every opportunity given for
the ratification of the peace treaty.
But the president has made this im-
possible."

thing must be done. I shall vote for
the resolution declaring the war at
an end because it is the only
possible way now of accom-
plishing this object."

Opponent of Article Ten.
"I voted for the treaty and the
league of nations," he said, "but
I would do so again, but never if
American and American re-
sources must be called at the behest
of any foreign country, and the
trotting and turbulent nations
of Europe; never if we are to sacri-
fice the century-old Monroe doc-
trine, never if foreign countries
interfere in democratic policies or
bring American labor to the level of
European or Asiatic; never if this
country is to be used as a base of
operations for the aggression of
nations. Employees were sent to
the home of every consumer in the
country and made each had been
notified."

Separate Peace Opposed
The provision in the republican
peace resolution setting the presi-
dent free to negotiate with Ger-
many for a separate treaty was

(By Associated Press.)
Washington, May 13.—President
Wilson today vetoed the legisla-
tive, executive and judicial bill.
The president said he returned

ANTI-FRATERNITY
MOVE GAINS AT U. W.

Madison, May 13.—A movement is
under way at the university to bring
the fraternity and sorority question
before the legislature again.
At a meeting recently attended by
about 75 students it was decided to
start a movement to eliminate frater-
nities and sororities from the
university. It is planned to take the
matter before the next legislature.
It will be argued that fraternity life
has become a menace to the in-
stitution.

It is said that the non-fraternity
advocates will hold that snobbish-
ness is engendered by the fraterni-
ties and that for that reason the
Greek letter societies should have
no place in a democratic institution
such as the university. It is said
that it will also be contended that
the grade of scholarship among
Greek letter students is lower than
that of non-fraternity students.

The ladies of St. Patrick's church
will sell home baking at their booth
at the bazaar from 1 o'clock Thurs-
day until Saturday night.

DURANT TO BUILD \$40,000 SCHOOL

Plans Ready for Beautiful Structure for Samson Tractor Salesmen.

Plans for a large two-story building of beautiful architectural design to be known as the Samson private school, were filed in the city building department's office today with an application for a building permit. The structure, estimated to cost \$40,000, will be built on the hill overlooking the entire Samson plant.

Application for the permit was made by W. C. Durant, president of the General Motors corporation, who owns the Milwaukee property in Monterey known in realty circles as "the hill." The Modern Housing corporation with Louis E. Hall as manager will erect the building.

It is proposed that the structure as a part of training school for Samson salesmen and also to provide recreation and quarters for them when they visit the main plant.

The main entrance will face the Samson plant, being in the center of the 145-foot side of the building. The building will have a large assembly room on the north end and the first floor with a large assembly room containing a platform and moving picture outfit. There will be a kitchen, serving room, dining room, lounge and recreational rooms.

The second floor will contain a number of bedrooms, baths, and writing rooms. The building will be divided into two parts, one with two porches. Plans were drawn by J. H. Appleton, New York architect.

Work on the concrete foundation was being pushed today by a crew of 25 men. Lumber is ready for construction when the foundation is completed. The site is a few feet south of the old Milwaukee residence, of which has practically been completed, on the southeast corner of Center and Eastern avenues.

He followed this with scores of 233 and 238, giving him a total of 773 for his three games. This is the first 300 score rolled on the local alleys since 1916, when Brestler's partner, William Greer, broke the world's record, for high score for five games, making 1,410 in the match, with 267, 300, 268, 273 and 300. Greer is expected to enter the Arcade bowling tournament, the Oshkosh B-Gosh team, former national champions, and the Sellers being scheduled to go on the alleys this afternoon and tonight.

RUBE STILL AT IT AND SOX LOSE, 14-8

AMERICAN LEAGUE
Again Babe Ruth was in the big hitting. Yesterday he knocked his third homer in two days and aided the Yankees in a slugfest to beat the White Sox 14-8. The New Yorkers made 20 hits for 29 bases off Williams, Lowdermilk and Payne. The Sox made seven runs in the sixth inning.

In the heaviest hitting contests so far this season at Boston, the Indians handed a drubbing to the Red Sox 9-7. McInnis made three runs for the Bean Town players in the fourth when he made a tripple with three on. Smith's double in the fifth with three on gave Cleveland three runs.

The series between The Maskmen and the Sox was evened yesterday when St. Louis won 5-4 in the tenth inning. Shovelin's single followed by two sacrifices, with a pitch between them, produced the winning run. In the fifth, three home runs were knocked into the bleachers — Jacobson, Severide, Dykes.

NATIONAL LEAGUE
Brooklyn at Chicago, rain. Twice the Quakers are quaking. In two games the Sox have won the black flag and won, this time 5-3. Pittsburgh bunched hits in the fourth and fifth to produce two more in the seventh on two singles and a wild pitch.

All others, rain.
AMERICAN ASSOCIATION
They're whoopin' 'er up in the Cream City. The Brewers won a game. Yesterday the White Sox lost in the opener there, 6-4. But it was only by good fortune. In the ninth, the Indians had the tying run on base but died when Gossett shot a pop foul to Gaston.

WHITE SOCK JUMPS TO BELOIT FAIRIES
Chicago, May 13.—John J. "Lefty" Sullivan, one of Kid Gleason's recruits, jumped the White Sox last night. When the Sox started Sunday night on their first trip of the season around the East Manager, Gleason left Sullivan at home. "This" apparently peevish Sullivan, for he got out and looked for a new job. Last night he signed a contract to play with the Fairbanks-Morse nine and to work in their factory at Beloit. He will be with the team Sunday and start to work on his new job Monday. Tomorrow he is moving his family to Beloit.

Butte, Mont., May 13.—The strike called by the I. W. W. April 18 was called off at a meeting of members of the union last night by adoption of a resolution to return to work and strike at the job. During the day notices that no I. W. W. will be employed on this property were posted at the various mines in the district.

DEBS NOMINATED FOR PRESIDENT

(Continued from Page 1.)
His present imprisonment resulted from governmental investigation of a speech in Canton, Ohio, June 15, 1915, which led to his arrest two weeks later for opposing the war and urging labor to cease all activities which tended to prolong it.

Labor Vetoes Clemency
Every atom of influence and energy in the socialist party went into the fight to keep Debs out of jail, but the United States Supreme court and Attorney General Palmer turned down each appeal in his behalf. Later the American Federation of Labor convention in June 1919, after heated debate, voted a resolution which favored clemency for him.

Organized Rail Union
In 1893 Debs organized the American railway union, designed to be the one union of all railroad men. The organization grew rapidly and within a short time won the celebrated Great Northern strike.

In the same year the Pullman strike broke out and Debs with his associates was placed on trial for conspiracy to obstruct the mails. In the course of this trial, one of the jurors reported "sick" and the trial was "temporarily" suspended. Debs in jokingly referring to the trial, once said that the juror is still "ill" and technically and legally the trial is still pending.

Debs is also credited with having helped to organize all the unions which now comprise the "big four" of the railroad brotherhoods. He is a charter member of the Terre Haute lodge, Brotherhood of Locomotive Firemen, and was recently voted a life membership card by that organization.

At the end of the demonstration, which lasted 21 minutes, delegates were marching in prison lock step around the hall with a red streamer carried by the Illinois delegation well to the lead.

The galleries joined with the delegates in a continuous rhythmic shout of "Debs, Debs, we want Debs!" By Acclamation.

When the tumult had subsided, Joseph D. Cannon of New York, seconded Indiana's nomination which resulted in the acclamation. Quickly following Cannon, Irving St. John Tucker of Chicago formally seconded for Illinois in an impassioned eulogy of Debs.

Victor Berger, unsated United States representative from Milwaukee, as the man who converted Debs to socialism in 1892, seconded for Wisconsin. He promised that Milwaukee county, which was the first in the country to give Debs a majority in 1920, would deliver an even greater vote, and that the state of Wisconsin would give him a majority likewise.

"Debs Glorified Penitentiary"
Cannon declared that even as the cross had been glorified by the crucifixion of Christ, so would the federal penitentiary be glorified in America through the imprisonment of Debs.

Cannon characterized Debs' sentence as a national disgrace which is "going to send the administration into oblivion."

The name of Seymour Steadman of Chicago, general counsel for the party, was placed before the convention for the vice presidency by Lena Morrow Lewis of Los Angeles and seconded by R. H. Howe of Chicago.

Steadman for Vice President.
Mr. Steadman received the nomination for vice presidency over Mrs. Kate Richards O'Hare of Kansas City, now serving a penitentiary sentence for violation of the espionage act. The vote on the first ballot was 106 to 26. This later was made unanimous.

He promised that Milwaukee county, which was the first in the country to give Debs a majority in 1920, would deliver an even greater vote, and that the state of Wisconsin would give him a majority likewise.

"Debs Glorified Penitentiary"
Cannon declared that even as the cross had been glorified by the crucifixion of Christ, so would the federal penitentiary be glorified in America through the imprisonment of Debs.

Cannon characterized Debs' sentence as a national disgrace which is "going to send the administration into oblivion."

The name of Seymour Steadman of Chicago, general counsel for the party, was placed before the convention for the vice presidency by Lena Morrow Lewis of Los Angeles and seconded by R. H. Howe of Chicago.

Steadman for Vice President.
Mr. Steadman received the nomination for vice presidency over Mrs. Kate Richards O'Hare of Kansas City, now serving a penitentiary sentence for violation of the espionage act. The vote on the first ballot was 106 to 26. This later was made unanimous.

At the end of the demonstration, which lasted 21 minutes, delegates were marching in prison lock step around the hall with a red streamer carried by the Illinois delegation well to the lead.

The galleries joined with the delegates in a continuous rhythmic shout of "Debs, Debs, we want Debs!" By Acclamation.

When the tumult had subsided, Joseph D. Cannon of New York, seconded Indiana's nomination which resulted in the acclamation. Quickly following Cannon, Irving St. John Tucker of Chicago formally seconded for Illinois in an impassioned eulogy of Debs.

Victor Berger, unsated United States representative from Milwaukee, as the man who converted Debs to socialism in 1892, seconded for Wisconsin. He promised that Milwaukee county, which was the first in the country to give Debs a majority in 1920, would deliver an even greater vote, and that the state of Wisconsin would give him a majority likewise.

Firestone Selling Power: Firestone's immense production requires a widespread distribution system. Sixty-five branches and 46,000 dealers throughout the United States, selling Firestone Tubes assure a fast-moving product, which means fresh stock at all times—most miles per dollar in tubes as well as tires.

ST. PAT'S DEFEAT ADAMS BOYS, 27-9

Heavy Hitting Features Second Game of Grammar School Baseball League.

LEAGUE STANDINGS	W.	L.	Pct.
St. Mary's	1	0	1.000
St. Patrick's	1	0	1.000
Lincoln	0	1	.000
Adams	0	1	.000

Featured by three home runs, two three baggers, and six two base hits, St. Patrick's school defeated Adams in their opening game of the grammar school baseball league at the Fourth ward park yesterday afternoon. The score was 27 to 9. The stick work of E. Clark was the big noise of the game. He captured a homer, a tripple and a double in six times at bat.

Lots of Fight
Watched by a crowd of youngsters, whose enthusiasm is running at an extremely high pitch, the game was an interesting to see as much pep and heat into their contests that the league is bound to bring forth keenest competition.

E. Clark pitched a steady game for St. Patrick's yesterday holding out the Adams school down and striking out nine of their men. Smith started on the mound for Adams but gave way to Hanrahan after going wild and being hit all over the lot. He went in then at second where he played a good game.

League Notes
Garfield school yesterday made definite announcement that it will enter a team in the league.

Grant school would like to come in, but since its students go only up to the sixth grade would be out-classed. The boys there, however, are displaying much interest in the race.

Rose will assume full charge of the league at the next game. Mr. Preston of the "X" is going out of town Saturday to attend a conference in North Carolina and has delegated Rose to take his place in the school ball.

The next game will be played again at Fourth ward park. It will be at 10 o'clock Saturday morning between Washington and Garfield.

Probability of getting a bigger and better field for the grammar school games will be taken up by the regulation parties. In such event the regulation size diamond for boys of ward school age, approved this year, will be laid out, the infield speeded, and everything made top shape.

Offering by the Gazette of a trophy to the winning team in the league has made a hit.

ATHLETIC COURSE IS PLANNED AT MILTON

Milton, May 13.—Milton college alumni and former students, particularly business and professional men in Chicago, Milwaukee and other large cities of the Middle West, are being appealed to for subscriptions to an athletic fund, which is being raised under the direction of a committee of the faculty. Approximately \$1400 a year for a period of three years had been pledged up to this morning. It is planned to establish a department of physical education at Milton next September for the purpose of training college students to take positions as athletic coaches in high schools. The new fund will be used not only to support the various college athletic teams, but also to pay the salary of a physical director.

ALL STARS TO PLAY MILTON NINE SUNDAY

Janesville All-Stars will take on the Crescents of Milton Junction at Charlie's Bluff, Koshkonong, Sunday. The team will make the trip by auto truck. Fans desiring to go along are asked to get in touch with Captain Babcock or see members of the team.

Tonight the Stars will practice at Rock Hill diamond 5:30. Every member is expected to be out.

MISS HOLLINS OUT OF BRITISH GOLF

Newcastle, Ireland, May 13.—The last of the American entrants in the British women's golf championship tournament was eliminated today. Miss Marion Hollins of Westbrook, L. I., the only American survivor was defeated in the fourth round by Miss Molly Griffiths 6 up and 4 to play.

Wanted, Stories of All Boys' Ball Games!

Next Saturday and Sunday, and quite often during the week, baseball games are played on the lots and diamonds of Janesville between the young boys, 10, 11, 12 and all the way up the line. The Gazette sports editor is interested in every one of them, but most of them are scheduled so quickly that it is often impossible to keep track of them without co-operation.

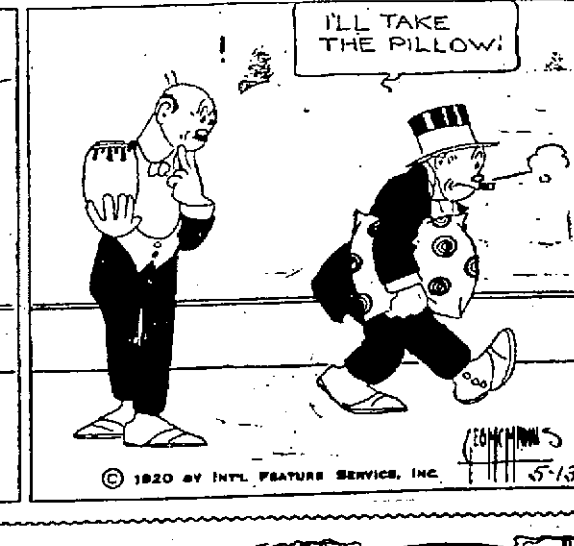

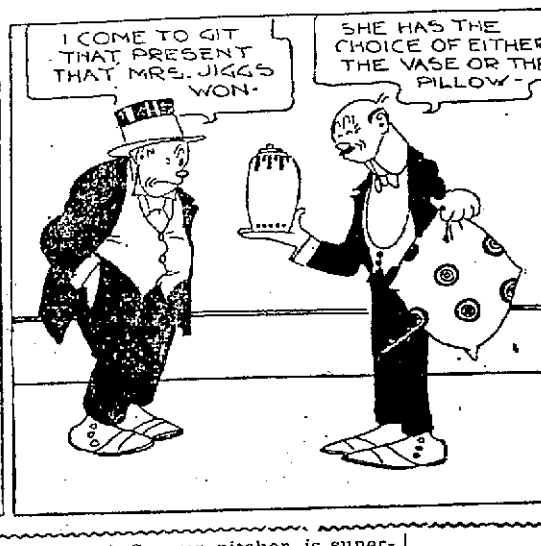

If the managers or captains of these teams will take the pains to write up brief stories of the games, giving the scores, who won, and the line-ups—you chaps know the dope—and bring the account into the office the same night or not later than 9 o'clock the next morning, it will be printed.

Come across and help boost sports in Janesville.

Country Club Program Ready in Few Days

Program and announcement of events, contests and social activities of the Janesville Country club is expected to be ready in about 10 days, according to a statement made today by D. W. Holmes, president.

PAPIN, FRENCH CHAMP, KAYOED BY TENDLER

New York, May 13.—Georges Papin, the French lightweight champion, made his debut in America at the Arena, Jersey City, Wednesday night, and received a terrific welcome from the crowd. The American, after battering the visiting boxer for five rounds of their twelve round bout, sent over to the jaw while fighting at close quarters in the sixth round, and Papin went down for the count.

Fight Decisions

Jersey City—Low Tandler won a technical knockout over Georges Papin, French lightweight champion, in the sixth round of a 12 round bout.

Omaha—Stanislaus Zbysko, veteran Polish heavyweight wrestler, won from Charles Cutler in straight falls.

BANQUET POSTPONES CHURCH GAMES

Because of the mother and son banquet held at the Y. M. C. A. last night, no games in the church basketball league were played. Those scheduled for last night have been postponed until Saturday at 7:30 p. m. This means that those originally intended to be played Saturday will be out over until next Wednesday, which will be the final of the season.

NORTHWESTERN SHOPS HERE REORGANIZING NINE; WANT GAMES

Reorganization of the baseball team of the Chicago and Northwest shops here is fast rounding the title into shape. Practically an entirely new infield will be shot into the field this year.

The club will play Saturday afternoon games. Efforts are now being made to complete the schedule, many dates being open after May 15. Shop or other teams of the city are challenged.

"Y" TENNIS COURTS READY NEXT WEEK

Tennis courts of the local "Y" on W. Milwaukee street are now ready to have the roller put on them. This is expected to be done today or tomorrow and the courts be turned over for use the early part of next week.

Olympic Golf Course Tricky

Antwerp, Belgium, May 13.—Play in the Olympic golf championship events to be held in connection with the Olympic games, beginning on July 12, will complete on a course which offers few errors to the steady, straight driver who is an accurate judge of pitch and distance, but which presents untold difficulties to the man with the slightest tendency to hook or slice.

The Associated Press correspondent went over the course, which is that of the Antwerp Golf club, at Cappellenbosch, about 16 miles from Antwerp. There are no pronounced elevations, but the 18 holes of the course are dotted all about with natural bumpy little hummocks of hard earth—most of them on the fairway—while sandpits and annoying little cup-like depressions vie with artificial bunkers, tiny water ditches and particularly nasty stretches of trees or rutty highroads or bordering all of the fairways.

Green Bay Forming City Sports Association

Green Bay, Wis., May 13.—An organization to foster outdoor sports, including baseball, hockey, football and tennis, as well as hunting and fishing, will be started in Green Bay as a result of a meeting of sportsmen at the Association of Commerce in this city. The sportsmen are anxious to have sports better organized here. Need of an athletic field in Green Bay is under consideration.

SAMSONS AIDING SMALLER CLUBS

Lending Players to Boost Sport—Need Post-Sider Here—About the Scoreboard.

Fame of the Samson Tractor baseball team is wending its way in a new direction. Following the recognition by the big town experts that the Samsons are a formidable aggregation, comes the appeal from several small towns up-state for aid, particularly in the pitching line. As a result, Wooten, Tractor utility man, will make a trip to Richland Center next Sunday to pitch a game for that club.

While the Iron Men will be glad to aid these smaller communities in boosting the national sport whenever it is possible, it is unfortunate that the locals have not any great number of extra men for this purpose.

Manager George Perring was expecting to take a trip to Chicago tonight on matters pertaining to the Janesville team.

The Samsons need a southpaw in their lineup. Watch for the break of the news. There's something going along this matter.

Lineup and data on the All-Stars will be published tomorrow, also. Be sure to get your copy. There will also be other interesting photos of last week's games.

Half a dozen business interests in the city are dickering to donate a scoreboard to Samson. Some are for advertising purposes, others want to

give electric boards. While the matter is being decided, a plain board has been made and will be used Saturday when the Milwaukee McCoy All-Stars play here over the weekend.

Dumont, Sammy pitcher, is superstitious about taking pictures.

50% More Mileage

In Boston, Green & Swett Co. watched the Miller records on some hundreds of large cars. They found that Millers increased the former tire mileage from 50% to 75%. They eliminated blow-out troubles. And only six tires in each 1,000 proved disappointing to the users.

\$1,000 Daily To Reduce Your Tire Cost

The Miller Tire mileage, now discussed everywhere, is not an accident. Over \$1,000 daily is spent in tests and inspections. Fifty inspectors guard against defects. Every lot of tread stock is first vulcanized and tested in the laboratory. Over 1,000 tires yearly are worn out in factory mileage tests. Every tire is signed by maker and inspector, and both are penalized if a tire falls down. Highly-paid experts spend their years in making betterments.

Mark the results

The Miller Tire is now talked everywhere. It is today's sensation. It is winning countless contests where a score of makes are brought into comparison. In the factory tests—radical rear-wheel

tests—Miller cords last year averaged 15,000 miles. The new Miller treads, in these tests, outwear the best of others by 25%. Defective Miller Tires are a rarity. Some large Miller dealers last year had not a single adjustment. If you don't know these new-day tires you should find them out. They are saving millions of dollars to motorists. Get one and watch it. It will give you new conceptions of a modern tire.

RELIEF SOUGHT FOR CONGESTED FREIGHT

Imperative Necessity for
Coordinated Action by Railroads
Urged.

(By Associated Press.)
Washington, May 13.—Imperative necessity for concerted action to relieve the freight congestion on American railroads in order to prevent serious curtailment of production, engaged the attention today of all government agencies which deal with the national arteries of transportation. Reports from important terminals agreed that while the situation was not as acute as it was two weeks ago, it still threatened a slowing down of industry with resulting unemployment and economic disturbance.

Shortage of cars given as the principal cause of the congestion with lack of adequate personnel and motive power as important contributory causes.

The committee on car service of the American Railroad Association estimated 235,000 cars tied up or delayed in transit at this time.

INCOMING FREIGHT IS STILL BELOW NORMAL

Chicago, May 13.—Although numerous manufacturing plants in the northwest and the middle west have been forced to cut down their working forces recently because of a shortage of cars for shipping, railroad managers here declared today that freight traffic conditions are improving daily.

Incoming freight is below normal, managers declared, adding to the shortage of cars available for the Chicago district because of tieups in other cities, especially Detroit, Pittsburgh, and Cleveland.

WISCONSIN CROPS ONE WEEK BEHIND

While there has been some improvement in the crop situation in Wisconsin during the past week, farmers are still about one week behind due to cold weather, the weather bureau said in its weekly report Wednesday.

"Weather conditions were more favorable during the week, and much progress was made with farming operations," the report said. "However, vegetation as well as farm work is about one week backward." The report was general over the state, the first part of the week, but no damage has been recorded. Fruit buds continue in excellent condition. "The planting of oats, barley and spring wheat was about completed in the southern portion and was advancing in the central section of the state. Wheat, rye, clover and tobacco beds made progress, and plowing for corn is general. The rainfall over most of the state Monday and Tuesday was very beneficial for light soils and pastures."

HUNGARY TO ACCEPT PARIS PEACE TERMS

(By Associated Press.)

Budapest, May 13.—Acceptance of the conditions of peace laid down by the Hungarian government is expected here unless extreme nationalist counsels prevail. The government is preventing a great demonstration by the league of territorial integrity at the ratification of the treaty, bearing the inscription: "Damned be the hand that signs the treaty!" The nationalist movement is expected to be crushed.

EVERY Diamond Tire on a car—and there are 2,000,000 of them in use—means that somebody has walked into a dealer's store, and bought it—

Often to replace another brand of tires.

This fact is obvious since Diamond Tires do not come as original equipment on cars.

In short, actual service on cars has proved to users that the utmost tire value lies in Diamond Tires.

Marquette.—The address of the graduating class of the Marquette high school this year will be delivered by J. H. Puchler, Milwaukee. The exercises will be held June 10. The class numbers 22 members. Miss Alice Mueller is valedictorian and Miss Helen Bradner salutatorian.

Marquette.—Carnegie Trustee, son of H. F. Belov, wealthy lumberman of this city and former University of Wisconsin student, was secretly married at Houghton, Mich., April 10. Announcement was just been made of the event by Mr. and Mrs. Robert Johnson, Detroit, parents of the bride, Della Marie Johnson. A courtship of one week is said to have brought about the matrimonial result.

Eau Claire.—The city's embarkation in municipal movies has proven a failure, in fact, is a loss after several months trial, to the city, and the idea has been abandoned. The city has just closed a contract with the Grand Theatre Co., which controls the Grand Opera House here, and all the movie and vaudeville houses, whereby that company will put on shows two days and two nights each week, the city and theatre company splitting even on the receipts after a practical split on all expenses.

Voice of the People

Editor Gazette:

I have my roasting clothes on today, and they fit fine. If I don't roast somebody just so often I get melancholy. There are a lot of people who need roasting, and another lot who like to roast them, and there you are. I feel my duty is plain. I have concluded to take a whack at the mayor. According to his own statement, everyone takes a sling at him before breakfast and after dinner, besides between times, and I pride myself on always being in style. As I judge it must be the mayor who is responsible for all the things that have been bothering me lately, here is where he does get it!

Mayor: where is that Roger Avenue that the suffering citizens up here have been lamenting over all winter, not to mention about ten thousand farmers who need that avenue over which to enter the city? Where is that vice, beautiful (in ordinary times), tremendously needed and so desperately abused thoroughfare? I am just about to tell you and it is up to you to take a day off and inform your street commissioner, or your committee of three who may frequently be seen hovering in the office around this neighborhood, that

If they desire to be regarded with the affection and admiration which should be their due, they will do something right straight off.

Perched on the crown of the road and extending over the entire road bed on each side sits a barn of mammoth proportions, and there it sits and sits. It has been progressing along the street at the rate of six rods in seven days, aided by one feeble steed and two men who take every other half hour for a period of meditation. I suspect whoever owns that barn came to the city hall and in an offhand manner requested a permit to move a barn, probably describing it as a little barn, large enough, say, for one horse and a dokey, and said permit was instantly forthcoming without one word of inquiry as to whether there was an adequate moving outfit for the performance or one word concerning time restriction. Who gives such permits? Does not such a permit carry with it a statement as to the allowance of time given for the removal?—or can a moving building obstruct traffic as long and as completely as the movers desire? What becomes of the wires that may be swept from their moorings by a building which looms higher than the poles? For myself, I have three electric and two telephone wires coming into my house across the front of this barn, 15 feet below the eaves, and always there is the probability of the building coming to a 12 or a 24 hour standstill.

Mr. Mayor: I have refrained from commenting on the dogs which, because of the license officer's reluctance to leaving the wild whirl of down town, roam this neighborhood unlicensed in the summer months; I have not rung your telephone to complain of the junk heaped back yards which ruin the looks of this might-be charming subdivision; I have not kept you awake nights in starting on additional electric lights to alleviate the pitch darkness of some of the blocks; I have not added my clamor to the vociferous and quite pardonable protests against the unspeakable condition of Roger Avenue since last fall; no, sir, I have refrained from harassing you, I have been considerate of you, and I hope you will appreciate it. Because, on the side, I really and truly think that you stack up mighty well. But all the same, and nevertheless, unless some oversight is put on the moving of that barn, I shall firmly believe that you have seven toes on one foot.

Your committee on streets, or your commissioner, will tell you that as soon as this monstrous structure gets off Roger on to one of the side and less important streets, nothing more will be heard from any objector. They will be wrong. I myself live on the side street that this towering immensity is surely ap-

proaching, and inch by inch it will bear down on my five wires and my beloved trees on the curb. I warn you, those trees are dearer to me than those movers know anything about!

And now, I suppose the next time I see the mayor, he will wipe me off the face of the earth. And with the whole police and fire departments at his command, the best I can get is the worst of it.
